A 10kW solar system with battery price ranges from Rs. 6, 00,000 and Rs. 7, 00,000, emerges as a cost-effective solution for communities located far from conventional power sources. These areas often face high electricity tariffs for grid connection, leading them to rely on expensive diesel-fired power for additional energy needs.

This Off-Grid solar system is available in 10 kVA ~ 120 kVA models with DSP digital control technology, it is combined with pulse-width modulation (SVPWM), disturbance MPPT control and multi-level control technology to enable the system to track the maximum power of solar panels fast.
