# 180m wind turbine generator set

## 180m wind turbine generator set

---

 LFP 280Ah C&I

### [Clashindarroch II Wind Farm proposal](#)

The 77MW scheme would consist of 14 new turbines, each with around a 6 megawatt (MW) capacity. The turbines are expected to produce enough fossil-free electricity to meet the equivalent demand of more than 55,000 UK ...

### ORE Catapult wind turbine testing facilities in Blyth to ...

Facilities in Northumberland for testing cutting-edge offshore wind turbine technology are set for an £86m upgrade. with the potential for a future extension to 180m, run by Offshore Renewable Energy (ORE The ...

### Endurance X35Q 180kW Wind Turbine , Earthmill , Sustainable Energy ...

With a large rotor diameter of 35m and a swept area of 962m<sup>2</sup> the X-35Q cuts in and generates more power at sites with a lower average wind speed than class 1 & 2 turbines. With a 180kW ...

### Windey Published World's Largest Onshore Wind ...

Through flexible power control, the power range of 6MW-7MW can be covered, and the diameter of wind turbine can be expanded to 180m or

more. 2) Modularization of transportation and installation: the main ...
