500v battery Ukraine

Overview

How many high-capacity lithium-ion batteries are there in Ukraine?

High-capacity lithium-ion batteries mean the base stations, Shchyhol said, “should have reserve power sources for at least three days.” And they can recharge themselves when the power comes back online. Two of the biggest telecommunications firms in Ukraine have, between them, already sourced and installed 22,000 new high-capacity batteries.

Why is Ukraine using high-capacity batteries?

With Russia regularly knocking out Ukraine’s power grid, the country has turned to high-capacity batteries to keep it connected to the world—and itself. The streets of Kyiv during a blackout last year. Photograph: Mykhaylo Palinchak/Getty Images.

Should Kyiv have better batteries?

So Kyiv has turned to a simple solution: better batteries. High-capacity lithium-ion batteries mean the base stations, Shchyhol said, “should have reserve power sources for at least three days.” And they can recharge themselves when the power comes back online.

Did Canada pay for Equalitie's first shipment of batteries to Ukraine?

Updated 10:25 am, February 24, 2023: eQualitie's first shipment of batteries to Ukraine was paid for by Canada's government, not crowdfunding. The security firm is crowdfunding its second shipment. You Might Also Like.
