

Solar Energy South Africa

Aces solar Lesotho

Overview

What is Aces Africa?

ACES Africa; Empowering Africa through Solar, Energy Storage and BIPV Solutions. In Pursuit of ZERO. Committed to sustainability and durability, we apply rigorous engineering principles to fabricate systems renowned for their enduring reliability throughout their lifecycle.

What does Aces do?

At ACES, we recognise the pivotal role that renewable energy plays in driving economic growth, enhancing the quality of life, and mitigating climate change. We are committed to promoting renewable energy by constructing solar PV, BiPV and Energy Storage plants for commercial, industrial, and utility clients.

What services does Aces offer?

At ACES, our expertise lies in deploying Solar PV, Building Integrated Solar Glass (BiPV), and Energy Storage (BESS) systems. We provide comprehensive services covering the entire project life cycle, from feasibility studies through project execution, ensuring a seamless journey from concept development to commissioning.

Who is Aces group?

ACES Group is a comprehensive energy solutions provider specialising in the Solar PV and Battery Energy Storage Systems (BESS) industry. Our group encompasses four key entities: EPC (Engineering, Procurement, and Construction), Asset Management, Funding, and the Academy (training).

Why should you choose Aces Africa?

At ACES Africa, we strongly believe in promoting sustainable clean power generation at affordable prices. Our focus is on creating eco-friendly environments and enabling businesses to achieve cost-effectiveness by utilising renewable energy. Partner with us to unlock the full potential of Solar

PV, BESS and BiPV Solutions.

How can Aces Africa help you power the future?

Contact us today to discover how we can help you power the future. At ACES Africa, we strongly believe in promoting sustainable clean power generation at affordable prices. Our focus is on creating eco-friendly environments and enabling businesses to achieve cost-effectiveness by utilising renewable energy.

Aces solar Lesotho

SOLAR PV MINIGRIDS FOR ENHANCING ELECTRICITY ...

Solar PV mini-grid technology is a suitable option for rural electrification in Lesotho due to the country's abundant solar energy resources. Lesotho relies heavily on biomass and imported fossil fuels for energy. Switching to solar ...

Solar Solutions

A grid-tie system works together with a utility power grid (i.e. Meralco). During the day, the solar panels generate electricity and during the night (or when solar power is insufficient), power is drawn from the grid. Best for customers looking for the most cost-effective option for solar and doesn't need a battery storage.

About , ACES Africa

At ACES, we recognise the pivotal role that renewable energy plays in driving economic growth, enhancing the quality of life, and mitigating climate change. We are committed to promoting renewable energy by constructing solar PV, BiPV and Energy Storage plants for commercial, industrial, and utility clients.
