Acrylic board replaces photovoltaic glass pad

Acrylic board replaces photovoltaic glass pad

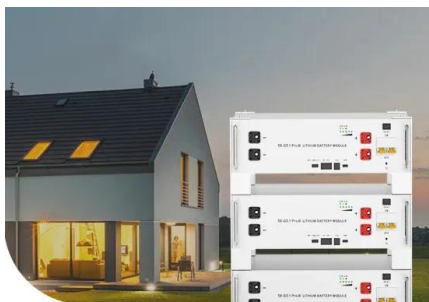

Plastic vs Glass pad, what should I get? : r/MousepadReview

the plastic pads like g440 and helios are faster (esp with pledge + lexips), but they only last a few months at their max speed before wearing down and getting slower, whereas skypad will stay ...

Glass pad or use glass skates with cloth pad? : r/MouseReview

go for glass coated pad, it offers both low initial friction and stopping power, while being comfortable as a cloth pad for your hands. I first used razer strider, then I tried the razer atlas, ...
