

## Solar Energy South Africa

# Angola gujranwala solar market

## Overview

---

Is Angola developing a solar power project?

Angola is currently developing several solar power projects that tie in to the country's Angola Energy programme and its environmental commitments. Among current developments is a mega-project consisting of seven photovoltaic plants that will be commissioned by Q2 2023 and additional projects funded by the Angolan and US governments.

Will Angola get 60% electricity by 2025?

Angola has set a target of 60% access to electricity by 2025 under the strategic plan 'Visao 2025,' of which solar is poised to play a central role. Supporting electrification as well as diversification, solar projects are being rolled out by the government alongside international partners and project developers.

How many MW of solar energy will be installed in Angola?

Under the agreement, Sun Africa will develop 728 MW of solar mini-grids to provide electricity to more than 2 million people in southern Angola. The investment represents the largest mini-grid energy project in Africa.

Will a 150 MW solar plant help Angola?

An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes, contributing to job creation, emissions reduction and efforts to increase national electrification.

Who owns solar power in Angola?

The asset is owned, run and financed by French energy giant TotalEnergies in partnership with Sonangol and local renewables company Greentech - Angola Environment Technology. In May 2022, President Lourenço approved a

contract worth USD 1.02 billion for the development of new solar projects with the aim of electrifying 60 communes.

What is the solar potential of Angola?

International players are showing increased interest in Angola's solar potential, with many projects expected to be operational within two years.  
Angola's estimated solar potential: 16.3 GW Installed solar capacity targeted for 2025: 800 MW
