.

What are the most common solar scams?

Here are some common scams to be aware of: 1. Fake Solar Companies Some scammers create fake solar companies, selling solar panel systems without any intention of installing them. They may ask for a big upfront payment and then vanish without doing any work. 2. Identity Theft Scams.

Is home solar a scam?

Scams are a blight on the solar industry, but that doesn't mean home solar itself is a scam. Here are some tricks to avoiding solar scams, finding reputable installers, and enjoying the benefits of home solar. If you only listen to one sales pitch, it can be easy to get sucked into a scam.

Are solar panel scams common in Florida and California?

Solar panel scams in Florida and California are quite common, as they are in any region where solar energy is popular and incentives are provided. Scammers take advantage of people's limited knowledge about solar systems, providing misleading information that makes it hard for victims to recognize the scam.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: [Solar Leases vs. Solar Loans vs. Solar PPAs](#)
