I can't display complete a table made with Itablex

As you have seen in my last questions recently asked here, I'm working with tables. Usually with tabularx is enough for me to satisfy the needs that I have with my tables. But one of them, even when I put it in two columns, that is, as the table only has 2 columns, I duplicated the to occupy better the width of the page, it still doesn't fit on one page.
