Gaseous Generators

Gaseous Generators. Continuous Power without the Hassle of Refueling Featuring extended run times, cost-effective engines and environmentally friendly emissions, Generac's clean-burning gaseous fuel generators can be used to meet local code requirements and the unique backup power needs of each business.

Whole House Generator Sizing Calculator [2024]

Whole house or home backup generators start at ~\$3,000 for a 10kW model and go up to around \$30,000 for a 150kW model. Most residential homes will need a 10-20kW generator. A popular 16,000 or 16kW whole house generator from Generac will put you back about \$4,200 (plus installation, which will cost several thousand dollars at a minimum).

Second thoughts about buying Generac 24kW standby generator

As far as air cooled gaseous fueled standby generators go, generac and Kohler are the most common. I'd choose Kohler personally. Briggs and stratton and champion have made an appearance on the market but I'm Leary. Its double the cost upfront but an 1800rpm water cooled unit is way quieter, more robust and can be placed closer to the home

Generac 26,000 Watt

More power. More protection. From a brand you trust. Introducing the Guardian 26kW home standby generator, from the #1 manufacturer of backup power products. With more than 60-years of experience in the backup power industry, it's no wonder why 8 out of 10 home standby generators installed are Generac.

Standby Generators--Backup Generators

When an outage hits, backup generators detect the outage and begin supplying power within seconds to the home or business. Transfer to standby generator power is automatic--backup generators make a permanent connection to a building's electrical system through an Automatic Transfer Switch.

How Do I Correctly Size a Generator for My Home?

To determine the size of the generator you need, envision what appliances you need during a power outage and use Generac's sizing calculator or schedule an in-home assessment. Generac offers a range of products, from essential circuit coverage to whole-house

coverage with load-shedding options.
