Ballard power system United States

Overview

Ballard Power Systems Inc. is a developer and manufacturer of (PEM) products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Is Ballard a stock?

Ballard listed on the Nasdaq Stock Market. Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack.

Why should you choose Ballard's fuel cell power products?

Benefitting from our vertical integration - ranging from Membrane Electrode Assembly (MEA), bipolar plates and stack design to complete system integration - Ballard's fuel cell power products deliver proven durability, reliability, and high power density with the lowest total cost of ownership. Explore our fuel cell products.

What time Will Ballard Power Systems hold a conference call?

VANCOUVER, CANADA - Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) will hold a conference call on Tuesday, November 5th, 2024 at 8:00 a.m. Begin your journey towards sustainable energy solutions by scheduling a consultation with our knowledgeable fuel cell experts—let's discuss how we can drive your project forward together.

What is Ballard's strategic partnership with Zhongshan broad-ocean Motor Company?

Strategic partnership formed with Zhongshan Broad-Ocean Motor Co., Ltd. of China with an equity investment of \$28.3M. Launch of Ballard's 7th generation FCveloCity®-HD module for motive applications. Ballard signs a long-term engineering services contract to advance Volkswagen AG fuel cell automotive research program.
