Barbados rise up solar

Overview

Is Barbados a leader in solar energy?

Barbados continues to maintain a leadership position in solar energy within the Caribbean. Building on a successful Renewable Energy Rider program which has seen 9MW of distributed solar PV installed, the electricity market has finally opened up to independent power producers (IPPs) to develop utility scale solar projects.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Who is the best solar company on the island?

And, of course, Williams Industries is the best partner because they have a track record of solar farms on the island and they are using the best technology," added Grisoni, who noted that the project had been put out to tender.
