Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops, the Government of Barbados is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial growth in this sector.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is “high”. If you could purchase a. Continue reading →

50KW modular power converter

Solar Generators for Home

There is no doubt that whole house solar generators can be pricey, so it's understandable that people wonder if they're worth it. The primary reason for homeowners to invest in solar panels and solar generators is to harness sustainable energy and to save money.. With the DELTA Pro ecosystem, energy is constantly stored, so grid power is less reliant on it.
