BASF Stationary Energy Storage - Mit uns Ihre passende ...

Wir, das Team der BASF Stationary Energy Storage, unterstützen Sie in allen Bereichen der Entwicklung und Umsetzung passender Energielösungen für Ihren individuellen Bedarf. Hierzu bieten wir Ihnen stationäre Batteriespeicher an, die auf der bewährten NAS-Technologie des japanischen Herstellers NGK Insulators Ltd. basieren.

Pakistan . Who we are Industry Groups Investors Career Media. Home. Who we are. Organization. BASF Renewable Energy GmbH is responsible for the procurement and trading of Renewable Energy at BASF. We set the pace and create new ideas for BASF on its way to net zero emissions. BASF Stationary Energy Storage GmbH sells high-energy,

[BASF Stationary Energy Storage GmbH](#)

We, the team of BASF Stationary Energy Storage, fully support you in finding the appropriate energy solution for your individual use case. We are selling stationary storage batteries based on the proven NAS technology, produced by NGK Insulators Ltd.

Group Companies

BTC Europe GmbH is the European distribution organization of BASF and it is headquartered in Monheim am Rhein. In Germany BTC has over 200 employees at 2 sites and supplies small and medium-sized customers from a wide variety of industries with about 5,000 products. The Company's strengths lie in its industry knowledge and its proximity to customers.

BASF Stationary Energy Storage GmbH

Wir, das Team der BASF Stationary Energy Storage, unterstützen Sie in allen Bereichen der Entwicklung und Umsetzung passender Energielösungen für Ihren individuellen Bedarf. Hierzu bieten wir Ihnen stationäre Batteriespeicher an, die auf der bewährten NAS-Technologie des japanischen Herstellers NGK Insulators Ltd. basieren.

BASF Stationary Energy Storage - Our Full Support for Your Energy ...

We, the team of BASF Stationary Energy Storage, fully support you in finding the appropriate energy solution for your individual use case. We are selling stationary storage batteries based on the proven NAS technology, produced by NGK Insulators Ltd.

BASF Stationary Energy Storage GmbH

Juni 2024 - BASF Stationary Energy Storage GmbH, eine hundertprozentige Tochtergesellschaft der BASF, und NGK

INSULATORS, LTD., ein japanischer Keramikhersteller, haben eine verbesserte NAS-Batterie (Natrium-Schwefel-Batterie) auf den Markt gebracht.

NAS Batteries - Designed for Stationary Energy Storage

Long life time 20 years / 7,300 cycles. Thanks to its slow degradation, an NAS ® battery maintains its functionality for up to 20 years or 7,300 equivalent operation cycles (whatever comes first).* * The equivalent operation cycle is only defined by accumulated discharged energy and independent from operating Depth-of-Discharge (DoD).

NAS Battery: 20% lower cost for next-generation ...

"With the NAS MODEL L24 our customers will be able to reduce their initial investment in battery storage system as well as save on long-term project costs, approximately 20% over project lifetime," Frank Prechtl, ...

[Containerized NAS ® Batteries](#)

About NAS ® batteries. NAS ® batteries consists of sodium as the negative electrode and sulfur as the positive one. A beta-alumina ceramic tube functions as electrolyte, which allows only sodium ions to pass through. When discharging, sodium is oxidized and sulfur is reduced to form polysulfide (Na_2S_x). The charging step recovers

again metallic sodium and elemental sulfur.

Group Companies

BASF Digital Solutions GmbH is a wholly-owned group company of BASF SE, whose service portfolio ranges from managing and operating supply chain and logistics, designing and optimizing business processes throughout the value chain to the ...

Leader Energy, BASF to deploy sodium-sulfur batteries in SE Asia

BSES is an exclusive global distributor of the sodium-sulfur (NAS) battery technology developed by NGK Insulators, a Japan-based industrial ceramics firm which has developed the technology designed for medium to long-duration energy storage (LDES) and other stationary applications.. Leader Energy, a subsidiary of HNG Capital, noted that it had ...

Joint News Release: BASF and G-Philos intensify cooperation on

BASF Stationary Energy Storage GmbH (BSES), a wholly owned subsidiary of BASF SE, and G-Philos, Korea's leader in power-to-gas (P2G)

hey have been deployed at over 250 locations worldwide,

NAS Battery: 20% lower cost for next-generation sodium-sulfur tech

"With the NAS MODEL L24 our customers will be able to reduce their initial investment in battery storage system as well as save on long-term project costs, approximately 20% over project lifetime," Frank Prechtl, managing director of BASF Stationary Energy Storage said. Read more [Energy-Storage.news](https://www.energy-storage.news) coverage of the NAS Battery.

NAS Battery for Stationary Energy Storage

The team at BASF Stationary Energy Storage helps you find the right solution: We conduct an initial cost-benefit analysis for your project, deliver the layout of the batteries and provide further advisory support, if needed. Our worldwide presence ensures we can respond to your requests

BASF Stationary Energy Storage GmbH vertreibt stationäre Energiespeicher auf Natrium-Schwefel Basis (NAS ® Batteries) Steigende Nachfrage nach erneuerbaren Energien Die globale Nachfrage nach Energie steigt stetig an. Gleichzeitig werden aber auch die Forderungen nach verstärktem Klimaschutz und Nachhaltigkeit immer lauter.

[Energy and Climate Protection](#)

In 2023, we built a stationary long-term sodium sulfur-based storage system (NAS ®) at our Schwarzheide site in Germany. It supports the power supply of individual systems via the plant's own solar park. Together with NGK Insulators Ltd., BASF Stationary Energy Storage GmbH makes NAS batteries and develops them further.

Battery energy storage system supports BASF in Schwarzheide of ...

A stationary energy storage system was erected on the site of BASF Schwarzheide GmbH. Schwarzheide is the first BASF production site

worldwide to test a green power supply for individual production parts through the combination of the site's own solar park and a stationary energy storage system.

Benefits and Applications

Microgrids. Minimization of fossil fuel use: Reduce energy costs and CO₂ emissions by combining a generator with an NAS[®] battery. Time of use shift: Excess power, e.g. from solar, is stored by the battery and shifted from daytime to nighttime. Power supply from grid reduced or even eliminated to achieve autonomous power supply.

Press releases

A stationary energy storage system was erected on the site of BASF Schwarzheide GmbH. Schwarzheide is the first BASF production site worldwide to test a green power supply for individual production parts through the combination of the site's own solar park and a stationary energy storage system.

NAS batteries: long-duration energy storage proven at 5GWh of

To learn more about NAS batteries, visit the BASF website [here](#). BASF Stationary Energy Storage GmbH will be presenting the technology at this year's Intersolar Europe / ees Europe in Munich, Germany, from 14 to 16 June 2023 at

exhibition booth B1.209.
