Home battery power: 'How much capacity do I need?' and

Without battery storage, a lot of the energy you generate will go to waste. That's because wind and solar tend to have hour-to-hour variability; you can't switch them on and off whenever you need them. By storing the energy you generate, you can discharge your battery as and when you need to.

The Battery-Powered Home: Foolproof Grid-Tied Lithium Storage

Written by a former US Navy submariner who transitioned into renewable energy in 2008, The Battery-Powered Home identifies the most common industry mistakes that lead to unhappy customers, lost revenue, and diminished reputation. A master storyteller, the author makes even the most complex part of the industry easy to understand- and fun to read!
