[BOS battery S - BOS AG - Manual](#)

The current is limited to a maximum of 80 A per device, for instance 4x BOS battery S can thus together support the lead acid battery with up to 320 A. Currents higher than the nominal rated currents of the BOS battery S are supported by

both, the BOS battery S and the lead acid batteries, resulting in smaller C-rates for both batteries.

Insights and news reports , Lithium Batteries Experts , BOS-AG

While BOS is constantly improved its portfolio for off-grid systems over the years, it needed 3 years of research and development to launch the BOS battery S. The next generation battery with an innovative multi-use concept, is on its way of becoming the new standard in motorhomes, but is also enjoying increased popularity in other high-end

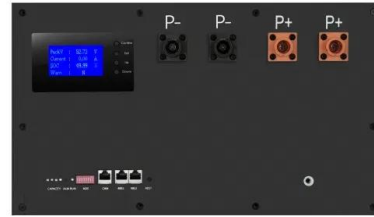

BOS battery S Installation , Lithium ion battery

In lithium only mode, simply connect the plus and minus poles. Everything else is taken care of by the battery management system. However, other combinations are also possible. the BOS battery S can be connected in hybrid mode to a lead-acid battery or ...
