### Brooklyn Microgrid Moves Ahead with Pilot

LO3 Energy is moving ahead with a 12-month regulatory sandbox pilot program for its Brooklyn Microgrid project. The pilot program will allow participants in the microgrid project to trade energy attributes on LO3 ...

### Brooklyn Microgrid , Community Powered Energy

Brooklyn Microgrid (BMG) is a network of New York City residents and business owners who support local solar energy production and who want to be pioneers in changing how we purchase and sell energy. BMG was created by parent company, LO3 Energy, to reimagine the traditional energy grid model by incorporating the concept of a communal

### [Energía del futuro: Brooklyn Microgrid](#)

Debido a esta problemática, la compañía local LO3 Energy se asoció con Siemens para desarrollar Brooklyn Microgrid, una red de energía comunitaria. La micro red fue creada en 2015 y cuenta con más de 50 prosumidores y más de un centenar de participantes consumidores que pueden comprar energía de la corporación comunitaria.

### Microgrid in Brooklyn: Nie

Lawrence Orsini, Gründer and CEO des Startups LO3 Energy, auf dem Dach eines Hauses in Brooklyn, das an das Microgrid angeschlossen ist. Foto: LO3 / Siemens Inzwischen nutzen circa 50 Parteien das "Brooklyn Microgrid" - darunter neben Privatpersonen auch eine Schule, eine Tankstelle, eine Feuerwehrrache und einige Fabrikanlagen.

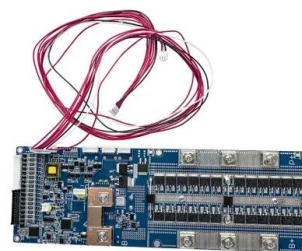

## BROOKLYN - décryptage d'une smart grid utilisant la blockchain

Quoi qu'il en soit, la Micro Grid de Brooklyn préfigure sans doute les systèmes énergétiques de demain. Les citoyens consommeront une énergie de source renouvelable, et produite localement. À l'échelle du quartier ou de la communauté, ils pourront gérer de manière autonome leur production et consommation d'énergie.

## Energy Industry First: Siemens, LO3 Energy to Link

Brooklyn, New York's LO3 Energy is at the leading edge of a fundamental restructuring and retooling of energy production and distribution. A partnership with Siemens should give the startup a big "leg up" as it seeks to expand use of its Ethereum Blockchain-based, P2P microgrid distributed energy trading software.

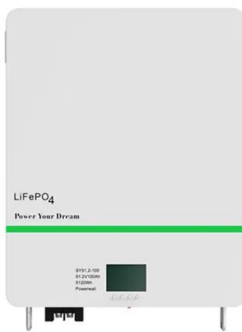

## Kyocera and LO3 Test Blockchain for a Virtual Power Plant in Japan

LO3, based in Brooklyn, N.Y., is among the first companies to design blockchain technology in conjunction with a microgrid. The company's pilot project in Brooklyn uses blockchain to allow the residents of several buildings with rooftop solar panels to buy and sell power among themselves without cumbersome accounting procedures.

## Solar Experiment Lets Neighbors Trade Energy Among Themselves

Dozens of homes and businesses in Brooklyn have been wired into a microgrid, which allows members to exchange excess-electricity credits. upstart companies like LO3 Energy, which is designing

## LO3 Energy Takes Blockchain Microgrid Energy Trading Platform ...

Brooklyn, NY-based LO3 Energy is leveraging initial demo installations in the U.S. in a bid to expand globally. Management on Nov. 3 announced it has established itself in Byron Bay, Australia where it is in discussions with local energy market players to build demo installations and pilot P2P energy trading platforms based on Ethereum smart contracts and ...

## Brooklyn Microgrid, donde los vecinos pueden producir, consumir ...

LO3 Energy, una joven empresa de Nueva York,

está trabajando con Siemens Digital Grid y la startup de Siemens, next47, en un proyecto llamado Brooklyn Microgrid, donde los vecinos están autorizados para producir, consumir y comprar energía dentro de su comunidad con una plataforma habilitada por cadena de bloques (blockchain).

## Siemens, LO3 Energy teams up for blockchain-powered microgrid in Brooklyn

Dive Insight: The Brooklyn blockchain-based microgrid started as a pilot project of LO3 Energy. The New York based start-up is now collaborating with Siemens, which will provide support from its

## Siemens Ups its Blockchain Ante with New Investment in LO3 ...

Cross-pollination of LO3's blockchain ledger and Siemens' microgrid management system, as part of LO3's flagship Brooklyn Microgrid pilot project, figured prominently in the partnership. Transactive grid blockchains Siemens and LO3 began working on the project in late 2015. The Brooklyn Microgrid connects rooftop solar energy prosumers

## Brooklyn's Blockchain-Enabled Energy Microgrid

The Brooklyn Microgrid is a prototype for peer-to-peer energy exchange systems, launched by LO3, Consensus, and Siemens in 2016. Energy is

investors to give new backing to LO3 this week.

## **New York Approves Regulatory Sandbox for Brooklyn Microgrid**

The office of New York Governor Andrew Cuomo has approved a 12-month regulatory sandbox program for the Brooklyn Microgrid project. The pilot program will allow participants in the microgrid project to trade energy on LO3 Energys software platform. LO3 has run Brooklyn Microgrid as a test project since 2016. The project began in the Park Slope ...

## **Blockchain used to power Brooklyn microgrid for solar energy re ...**

Siemens and a Brooklyn-based energy start-up have created a blockchain-based microgrid for residents of three neighborhoods to sell energy from rooftop solar panels to each other and the utility.

## **P2P energy sharing start-up brings Brooklyn Microgrid smarts to**

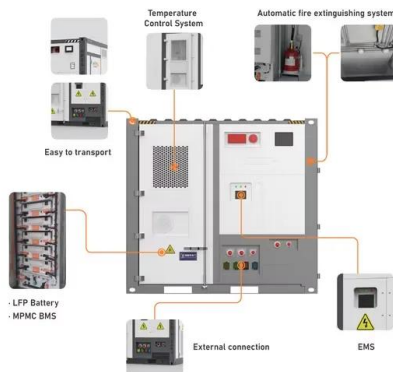

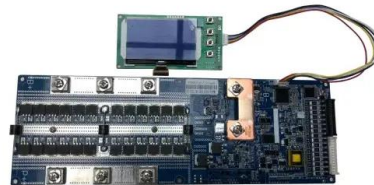

"The Brooklyn Microgrid was only made possible because of progressive changes in policy and the engagement of the progressive utility companies," Kinkead said in a statement on Monday. "The LO3 teams in America and Europe have seen that forward thinking policy makers and energy companies are beginning to understand the opportunity that

## Energy Industry First: Siemens, LO3 Energy to Link

Brooklyn, New York's LO3 Energy is at the leading edge of a fundamental restructuring and retooling of energy production and distribution. A partnership with Siemens should give the startup a big "leg up" as it seeks to ...

## Sumitomo group invests in Lo3 Energy to support microgrid ...

The Brooklyn Microgrid developed by LO3 Energy marks the first P2P electricity trading project in the world. Since the launch of Brooklyn Microgrid, the company has expanded its business in the Americas, Europe, Australia, and other developed regions, operating a number of pilot projects.

## How the Brooklyn Microgrid and TransActive Grid are paving the ...

The Brooklyn Microgrid and other community Microgrids will be highlighted as real-world examples of how LO3 Energy's TAG can be applied in a real-world setting. Information will be provided on the history of the projects, the

market conditions that fostered the development of community microgrids, and the issues the project team has
