

Solar Energy South Africa

CITIC Securities Photovoltaic Panel

Overview

What is the growth rate of distributed PV installations in 2022?

In 2022, distributed PV installations saw significant growth, reaching 51.11GW; and in 2023, new distributed PV installations soared to 96.29GW, an 88% increase year-over-year. The data on installations shows that the annual growth in capacity has consistently exceeded 70%, with the 2023 increase nearing 90%.

Will domestic PV consumption bottlenecks reshape China's PV market?

In this regard, a research report from CITIC Securities predicts that if domestic PV consumption bottlenecks are addressed, it could significantly expand the space for new PV installations in China, coupled with a bottoming out of module prices, potentially boosting the willingness to install downstream.

What is the demand for PV installations in China in 2024?

The demand for PV installations in China in 2024 is expected to exceed expectations, with the annual growth rate revised upwards to 20-30%; the total new PV installations for the year are expected to reach 260GW to 280GW (previously projected at 230GW for 2024).

How did China's photovoltaic industry perform in 2023?

In 2023, the Chinese photovoltaic industry delivered results that far exceeded expectations. According to official figures, China saw the annual addition of approximately 216.88GW of PV capacity in 2023.

How many solar panels are installed in China in 2023?

By the end of 2023, China's cumulative distributed PV installations hit 254GW, accounting for 42% of total PV capacity, marking an impressive achievement. Figure 1: 2013-2023 China PV new installed capacity. Source: National Energy Administration. Chart: PV Tech.

Is China's distributed PV market a problem?

Image: JA Solar. Last year saw 96GW of distributed PV installed in China, an all-time record. But as Carrie Xiao reports, even as the distributed market segment begins to surge, problems associated with its rapid development are beginning to emerge. In 2023, the Chinese photovoltaic industry delivered results that far exceeded expectations.
