

## Solar Energy South Africa

# Can I buy second-class brand photovoltaic panels

## Overview

---

Yes, you can certainly buy 'pre-loved' solar equipment – and you'll need it if you want to make your own electricity. Are second hand solar panels eco-friendly?

However, by investing in second hand panels, users can avoid these emissions – making their solar panel system even more eco-friendly. Plus, instead of being dumped into landfill, these solar panels will get a second chance in life (although many solar panels can now be recycled ).

Are second-hand solar panels cost-efficient?

Cost-Effective Solution: Second-hand solar panels present a cost-efficient option for DIY home solar projects or for augmenting existing solar arrays, offering savings of up to 50% compared to new panels.

Should you buy second hand solar panels?

Investing in second hand solar panels isn't a terrible idea, but you should definitely take your time to consider the quality of the panel before jumping at the chance. This is because buying second solar panels can be a bit risky. On the one hand, they can remove the barrier of the high initial costs, leading to reduced energy bills and emissions.

Can you buy used solar panels?

Yes, you can buy used solar panels! Homeowners interested in harnessing solar energy's power can purchase used solar panels instead of solely relying on new ones. Used solar panels (also known as second-hand or pre-owned panels) are modules previously installed or have undergone testing but are still functional and capable of producing electricity.

How do I choose a solar panel brand in the UK?

Product availability in the UK can also determine which brands installers are able to fit. When you talk to different installers (we'd recommend getting

three quotes), use our research on solar panel brands to help you choose between them. Read our full buying advice for solar panels.

What are the best solar panel brands?

Find out what owners think of JA Solar, Jinko Solar, Longi, Solaredge and Trina Solar solar pv panels to find the best solar panel brand for you.
