

Solar Energy South Africa

Cayman Islands solar control unit

Overview

What is the first commercial solar project in the Cayman Islands?

The 5MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 polycrystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

How does CUC power a solar power plant in Grand Cayman?

The fuel is transferred by pipeline from suppliers' tanker terminals to CUC's centralised generating Power Plant located on the outskirts of George Town. In 2017, CUC commissioned Grand Cayman's first commercial solar project.

What to do in Cayman if there is no sun?

Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall mounted and can be stored either outside your home or inside your garage.

What is CUC's solar farm?

The farm comprises 21,690 poly-crystalline photovoltaic (solar) modules, each with a DC-rated capacity of 305 watts. The facility is connected to CUC's Bodden Town Substation and provides equivalent energy to power approximately 800 homes with clean, renewable solar energy.

Cayman Brac MRCU

This was achieved using an aggressive campaign of house spraying and yard surveys. In 1972 the WHO declared the Sister Islands free of this mosquito, although avoiding immigration of this species from Grand Cayman is still one of the vital tasks carried out by the Cayman Brac Unit. Today the Unit is based on Songbird Drive on the Bluff.
