## Central African Republic som energy vault

### Central African Republic

Less than 3% of the population has access to electricity in Central African Republic. Grid-based electricity supply is insufficient to meet electricity demand: it is unavailable 28% of the year on average, mainly due to generation outages. Free and paid data sets from across the energy system available for download. Policies database. Past

### Engineering the Future of Renewable Energy - SOM

Energy Vault collaborated with SOM to find efficiencies in their existing EVx(TM) platform, enabling the design and engineering of several new typologies--including towers over 300 meters and up to 1,000 meters tall--which would be able to achieve a carbon payback within accelerated timeframes of 3 to 4 years. Through this partnership, Energy Vault and SOM are designing a ...
