

## Solar Energy South Africa

# Chad nextgen solar

## Overview

---

What is NextGen Solar?

NextGen Solar is a U.S.-based, renewable energy company focused on building and operating utility-scale, PV Solar power plants in sub-Saharan Africa. They integrate a hybrid model of modern PV generation with existing legacy diesel plants. NextGen Solar has operations in Tanzania, Kenya, and Uganda.

Will savannah energy install a solar power plant in Chad?

Savannah Energy plans to install up to 300 MW of solar and a battery to power operations at its recently acquired Doba Oil project in Chad. It has also pledged up to 100 MW of solar and the same amount of wind to generate power for the capital, N'Djamena.

How many MW of solar will Chad have by 2021?

The International Renewable Energy Agency says Chad had 1 MW of grid-connected solar by the end of 2021. Savannah Energy has signed a deal with the government of Chad to develop up to 400 MW of solar-plus-battery projects in the country.

What is the largest energy project in Chad?

He said it is likely “the largest ever by a British company” in Chad. The energy company said the Centrale Solaire de Komé project will likely be approved in 2023. It is expected generate its first electricity in 2025. For the Centrales d’Energie Renouvelable de N’Djamena facility, the respective dates given were 2023-24 and 2025-26.

What is the largest solar project in Africa?

At 300 MW, the Centrale Solaire de Komé facility would be “the largest solar project in sub-Saharan Africa (excluding South Africa),” according to the energy company. It said it would also represent “the largest battery storage

project in Africa .”
