China-Brazil solar power plant

Overview

Does Brazil have a green energy partnership with China?

(Photo by Zhang Zhiwen/People's Daily) In recent years, the Brazilian government has actively promoted green energy transition, with clean energy cooperation becoming a hot area of collaboration between China and Brazil.

Will China import Chinese PV modules for a solar plant in Brazil?

BEIJING, April 26 (Reuters) - China General Nuclear Power Group (CGN) has secured its first yuan-denominated trade finance to import Chinese PV modules for a solar plant in Brazil, official media said on Friday.

Will Brazil get a high-voltage direct current transmission project in 2023?

In December 2023, the State Grid Corporation of China won the franchise rights for another ultra-high-voltage direct current transmission project in Brazil, which will transport clean energy sources such as wind and solar power from the northeast of the country to the capital Brasilia and other areas.

Will SPIC become Brazil's largest energy generator?

The company is diversifying its portfolio and aiming to become one of Brazil's three largest energy generators, Adriana Waltrick, CEO of SPIC's Brazilian unit, told Reuters. SPIC's new wind farms, to be built in Rio Grande do Norte state, will have a combined installed capacity of 105.4 megawatts (MW) to be sold on the free energy market.

Why is Brazil launching a mega project?

The Brazilian Minister Alexandre Silveira said that the mega project will play an important role in improving the safe and stable operation of the power grid in his country, promoting wind and solar energy in northeastern Brazil to support the green and low-carbon development of Brazil's economy and society.

Who won Brazil's largest auction of infrastructure power transmission project?

Being the largest auction of infrastructure power transmission project ever held in Brazil, the project was won by China's State Grid last December, following the Chinese company's previous two bids for the Belo Monte UHVDC transmission project in Brazil.
