## [CleanSpark , IBM](#)

CleanSpark was established in 2012 to help organizations develop their own microgrids. Microgrids are not one-size-fits-all endeavors. Whether they're meant to address the energy needs in a single household or in a massive, interconnected and geographically dispersed series of buildings, microgrids are complex, and the number of factors that

## **CleanSpark CEO Discusses Residential Microgrids**

Zachary Bradford, CEO and president of CleanSpark, sat down with Microgrid Knowledge to talk about the growth of residential microgrids and how the new administration can encourage faster consumer adoption rates. CleanSpark, a technology company focused on microgrid software, is seeing significant growth in the residential market, according to
