[Guinea-Bissau: Energy Country Profile](#)

Guinea-Bissau: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Services

Buildings come in a wide variety of shapes, sizes and purposes, so out-of-the-box fixes rarely lead to real energy savings. Our approach at Clear Energy is to evaluate all facets of a structure's energy use for our Energy Services Companies (ESCOs) and corporate clients and then offer a

tailored solution that meets the budget and project goals.
