## News

Press Release - 5 January 2023. In the framework of Germany's assistance to Ukraine, SOKRATHERM GmbH (a member of B.KWK - the German CHP Association, which is a member of COGEN Europe) has won a contract to provide 5 mobile cogeneration units to the city of Kharkiv. The first two mobile GG 70 VR compact CHP units have already arrived in Kharkiv ...

## COGEN Europe

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe.

## National Summit on Combined Heat and Power

From September 13-15, 2021, the Combined Heat and Power Alliance, the leading national voice for the deployment of combined heat and power (CHP) and waste heat to power (WHP), is hosting its second annual virtual National Summit on CHP. The Summit will convene a diverse group of stakeholders, including industry experts, end users and potential

## [Cogeneration in 2050](#)

A study by Artelys finds that cogeneration is a primary enabler to achieve carbon neutrality in Europe by 2050. Realising the cost-effective potential for cogeneration in all sectors will maximise energy efficiency and integration of the European energy system at the lowest cost, while bringing key benefits to end consumers.

## Combining EU ETS with support for low-carbon alternatives

In this regard, high-efficiency cogeneration (HE-CHP) can and should play a crucial role in both decarbonising the European economy, and in the carbon-neutral world of tomorrow, being the optimal, feasible, resource-efficiency technology, maximizing primary energy savings. Through simultaneous generation of heat and electricity in the most

## State of the Energy Union: "It's time to unlock the potential of high

COGEN Europe's Policy Priorities 2024-2029 are set out in the document: The Role of Cogeneration in Europe's Energy Transition - Enabling an Efficient Pathway to Net Zero . Search. Search. Recent Posts. COGEN Europe calls on the new European Commission to boost competitiveness and cut emissions by putting energy efficiency first;

## COGEN Europe key recommendations on "EU climate target ...

COGEN Europe o The European Association for the Promotion of Cogeneration Rue d'Arlon 80, 1040 Brussels, Belgium T +32 (0)2 772 82 90 , F +32 (0)2 772 50 44 , info@cogeneurope o CHP is future proof and fuel flexible, having the capability to easily switch to renewable sources including biomethane, bio-LPG, hydrogen.

## Policy Priorities

The Role of Cogeneration in Europe's Energy Transition Enabling an Efficient Pathway to Net Zero The next five years will be crucial for building a prosperous, competitive and sustainable Europe. Energy is vital for all Europeans and the economy. Our homes, schools, hospitals, businesses and industry need secure access to electricity and heat that are both

## **COGEN Europe calls on the new European Commission to boost**

PRESS RELEASE 2 December 2024 COGEN Europe (the European Association for the Promotion of Cogeneration) looks forward to engaging with the new European Commission, which officially starts work today (2 December 2024), following positive votes in the European Parliament and European Council last week. Commenting on the first working day of the new European

## **Ene eld and PACE lead to fuel cells market take-up**

Fuel cell micro CHP ( $\mu$ CHP) is an already available highly efficient distributed energy

solution for heat and power generation near the point of consumption. Small units are typically used for residential or small commercial buildings and are able to provide demand for heating, hot water and/or cooling in buildings while generating electricity to replace or

## Cogeneration has a key role to play in delivering the EU's

PRESS RELEASE. 17 June 2024. COGEN Today, Environment Ministers from the 27 EU Member States met in Brussels, where they discussed the European Commission's communication on Europe's 2040 climate target and path to climate neutrality by 2050, which recommends reducing the EU's net greenhouse gas emissions by 90% by 2040 relative to 1990.

## 2021

COGEN Europe supports an ambitious, comprehensive and predictable legislative framework towards achieving the European Union's goal of 'net zero' greenhouse gas emissions by 2050. We believe that the process of setting an emissions target for 2040 must take into account the role of energy efficient solutions and technologies, including

## Membership

One of COGEN Europe's multiple objectives is to create opportunities at the national and local levels for the sector to grow via the development at European level of a favourable environment (supportive energy policies, enabling research development deployment and innovation

framework, allowance of funding opportunities for developers and operators, etc.).

## Cogen

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe.

## [COGEN Europe , LinkedIn](#)

COGEN Europe , 1922 seguidores en LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity. It is based on the simultaneous production of electricity and thermal energy, both of which are used.

## Combined heat and power as a key component of

EM-Power Europe Munich, June 9-11, 2021  
 Munich/Pforzheim, January 26, 2021 - Our energy supply needs to become flexible, clean and cost-effective. This requires the coupling of the electricity, heat and transportation sectors. Sustainable combined heat and power (CHP) - or cogeneration - is a key component of sector coupling and, in addition to other renewable

## Our Members

COGEN EUROPE brings together national associations and companies with an interest in cogeneration - from equipment manufacturers to end-users and consultancies. We currently have 55 members including 17 national associations and 38 corporate members. National Association

## INNIO Group wins COGEN Europe Award 2024 for its innovative ...

o COGEN Europe highlights the latest trends from the energy world in the presence of industry representatives, policymakers and other key stakeholders. BRUSSELS, Belgium - November 27, 2024 - INNIO Group today announced that it was awarded the COGEN Europe Recognition Award 2024 in the Technology and Innovation category for its 1 MW-class

[COGEN Europe Virtual Annual Conference](#)

The COGEN Europe Virtual Annual Conference will debate how we can shape this ambitious package to ensure it delivers a cost-effective energy. The Fit for 55 Package will determine the future of the European energy sector as it sets the pathway how Europe will decrease its greenhouse gas emissions with at least 55% by 2030. The COGEN Europe

## **INNIO Group Announces That Its Jenbacher Brand is a Winner of the COGEN**

INNIO's Jenbacher brand received the COGEN Europe Market Development Award 2023 in recognition of four major projects across the cogeneration sector. - The COGEN Europe event highlighted the latest trends from the energy world in the presence of industry representatives, policymakers, and other key stakeholders. - COGEN Europe's recognition of ...
