

## Solar Energy South Africa

# Comoros telesystem energy

## Overview

---

Is the Comoros transitioning to res?

The Comoros, like Madagascar, Mauritius, and Reunion, has recently focused its efforts on the transition to renewable energy sources (RES) throughout its territory. This paper provides policymakers with a comprehensive overview of the energy situation in the Comoros.

What is the cost of electricity in the Comoros?

The cost of electricity in the Comoros is 298 USD/MWh for the consumer, despite the high production cost of approximately 595 USD/MWh. The population is ready to pay for access to electricity.

What is the energy situation in the Comoros?

The energy situation in the Comoros is substantially based on fossil fuel imports. This archipelago's socioeconomic development is heavily dependent on energy security from sustainability, availability, and affordability perspectives.

How will the Comoros Islands be affected?

The Comoros Islands could be affected by the energy review through extreme events such as natural disasters, volatility of oil prices, socioeconomic energy risks, or geopolitical instability.

Is the Comoros fully electrified?

The Comoros is not yet fully electrified. In the case of the Comoros, the territory does not have systematic access to drinking water and its level of development is very low with an HDI of 0.503 for the year 2017.

Should Comoros invest in solar energy?

The Comoros has significant potential for the development of photovoltaic

energy (\*\*should they invest in it\*\) given its economic situation. Recently, a French company signed a contract with SONELEC to purchase electricity from solar energy for 26 years.

**Comoros**

To get an accurate picture of energy efficiency in a country, it is important to first look at how and where energy is being used. Total final consumption (TFC) is the energy consumed by end users such as individuals and businesses to heat and cool buildings, to run lights, devices, and appliances, and to power vehicles, machines and factories.
