Solar panels reduce maritime surveillance operating costs

The new solar system can generate enough electricity to meet the power needs of both the building and the patrol boat at port. Longhurst said when the solar system covers both the maritime office and the ship, they hope to save around \$200,000 per year in power bills in the police budget.

New Zealand company completes solar project in Cook Islands

Infratec Chief Executive Greg Visser said the four solar plants were now providing clean, reliable and affordable energy to almost 1500 people - or about 9 percent of the Cook Islands' population. The solar panels, which are backed by battery storage, will meet about 95 percent of the islands' energy needs, he said.
