DR Congo solar power kits

Overview

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances.

How much solar power is available in Kinshasa?

In the area around Kinshasa there is a further 6 gW of solar available at 7 us cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville.

How many products are distributed every month in the DRC?

Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances. Our cost effective systems help off-grid customers power a wide range of appliances.

Is the DRC a hydroelectric country?

This has given it enormous potential for hydro electric power and almost 100% of its grid power is HEP. The DRC is the largest country in Sub Saharan Africa occupying 2,345,000 km² with 3.32% as standing water including rivers and lakes. Its sheer size, lush vegetation and landscape has been its problem since independence in 1960.

What was the main transport artery in the Congo?

When Europeans entered the Congo in the mid 19 th Century the Congo river was the main transport artery. During the Belgian colonial rule they operated

a series of ferries that worked like a train service from Kisangani all the way to Kinshasa calling at each river port. Direct ferries are now long gone as there are major problems with navigation.

How a UAE Company is Powering DR Congo with Solar Energy

He said this 200MW Phase 1 is a crucial step in realizing the 1,000MW Solar Power Purchase Agreement (PPA) signed with the Congo's state-owned utility, Société Nationale d'Electricité (SNEL). The project is expected to be fully operational in 18-24 months, Adler said, adding that the project will have a direct and indirect impact of \$700
