Petróleo y gas

Los gases de pozo frecuentemente se queman en antorcha o eliminan en esta etapa de la producción de petróleo y gas. Estos gases asociados con frecuencia están contaminados, por ejemplo con H₂S o alto contenido de hidrocarburos pesados, por lo cual son muy difíciles de utilizar para generar energía.

OPRA Turbines To Deliver OP16 Gas Turbine For Low

OPRA Turbines B.V., announces it has signed an order with Spirit Energy to deliver one OP16-3B gas turbine generator set for their Markham J6A

offshore platform in the Dutch sector of the Netherlands Continental shelf, which will replace an existing Dresser Rand KG2-3C gas turbine which has been in operation since the start of the platform.
