Overview

Will AMEA power build a solar photovoltaic plant in Djibouti?

Emirati independent power producer (IPP) AMEA Power has signed agreements to build a solar photovoltaic plant in Djibouti. With a capacity of 30 MWp, the construction of the solar plant will be done in the framework of a public-private partnership (PPP).

What is Djibouti's energy policy?

The government of Djibouti is committed to providing the population with sustainable, abundant, diversified energy at a lower cost.

Why is Djibouti relying on IPPs?

According to Power Africa, Djibouti has an installed capacity of only 126 MW. Out of this just 57 MW are reliably available to serve a population of nearly 988,000 and its main industries. However, the government is relying on IPPs to exploit Djibouti's renewable energy potential. The government is ramping up its renewable energy capacity.

How does Djibouti support goal 7?

In the case of Djibouti, the government is very committed to increasing renewable and sustainable energy in the general energy supply. The fact that the government imports hydroelectricity from Ethiopia, the development of geothermal energy and investments in solar energy technology shows that Djibouti supports Goal 7.

What does AMEA power do in Djibouti?

AMEA Power will develop the project in partnership with the Sovereign Wealth Fund of Djibouti (FSD). The electricity produced will be sold to Djibouti's public utility Électricité de Djibouti (EDD), under a long-term power purchase agreement.

Who signed the JDA in Djibouti?

Whereas, the JDA was signed by Djama Ali Guelleh, CEO of the national utility EDD, Slim Feriani, CEO of FSD, and Hussain Al Nowais. Hussain Al Nowais, said, “Djibouti has set an ambitious target for renewable energy and AMEA Power is pleased to help the nation increase the share of renewable energy in its electricity mix.
