# Djibouti solar world company

## Overview

---

Will AMEA power build a solar PV plant in Djibouti?

UAE-based independent power producer (IPP) Amea Power has signed agreements to build a 30 MWp solar PV plant in Djibouti. This will be done in the framework of a public-private partnership (PPP). Amea Power continues its expansion in Africa.

Why is Djibouti constructing a solar farm?

Djibouti's \$390 million solar farm is under construction in southern Djibouti as a result of a public-private partnership between Djibouti's Ministry of Energy and Natural Resources and Green Enesys, a German renewable energy firm. Construction began in 2018 after \$50 million in funding was secured by the World Bank and other financiers.

Does Djibouti have a geothermal potential?

Djibouti is also banking on its geothermal potential with the start of drilling in the Lake Assal area. In addition to electricity production, this East African country wants to exploit the natural heat of its subsoil for various uses, particularly in the industrial and agricultural sectors.
