Overview

Will Northvolt AB go bankrupt?

THE CANADIAN PRESS/Christinne Muschi MONTREAL - Northvolt AB has filed for bankruptcy protection in the United States, but said the move will not jeopardize the manufacturer's planned electric vehicle battery plant in Quebec — though hundreds of millions of taxpayer dollars invested in the parent company could be lost.

Who is Northvolt?

About Northvolt Northvolt was established in 2016 in Stockholm, Sweden. Pioneering a sustainable model for battery manufacturing, the company has received orders from several leading automotive companies.

Does Northvolt have a liquidity problem?

"Northvolt's liquidity picture has become dire," the company said in its Chapter 11 petition. Northvolt, a Swedish-based lithium-ion battery manufacturer backed by Volkswagen Group and others, has filed for bankruptcy protection in the United States. The company was hailed as one of Europe's biggest hopes against China's EV battery supremacy.

How much debt does Northvolt have?

The company said in its Chapter 11 petition filed in the United States Bankruptcy Court for the Southern District of Texas that its "liquidity picture has become dire." Northvolt, which has operations in California, has roughly \$30 million in cash, which is enough to support it for only about a week. Meanwhile, it has \$5.8 billion in debt.

Will Northvolt fight China's EV battery supremacy?

The company was hailed as one of Europe's biggest hopes against China's EV battery supremacy. Northvolt's financial situation deteriorated in a matter of months. Swedish-based Northvolt, which was seen as one of Europe's best

shots at fighting off China's electric vehicle battery supremacy, filed for bankruptcy yesterday.

Who makes Northvolt batteries?

Northvolt manufactures lithium-ion battery cells used for electric vehicles and stationary storage. Volkswagen Group is its largest shareholder after an investment of roughly \$1 billion.
