Drax power limited St Vincent and Grenadines

Overview

Drax Group plc, Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business. The company is listed on the London Stock Exchange and is a constituent of the FTSE 250 Index.

Who is Drax Group plc?

Drax Group plc, trading as Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business.

Who uses Drax power?

Drax supplies renewable source power to over 165,000 businesses and organisations across the UK, including electricity from Drax Power Station. We provide and manage electricity for large industrial and commercial sector customers from our offices in Northampton and Ipswich. Opus Energy.

Where is Drax based?

The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business. The company is listed on the London Stock Exchange and is a constituent of the FTSE 250 Index.

Who owns Drax Power Station?

In 1990, the electricity industry of England and Wales was privatised under the Electricity Act 1989. Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies.

What happened to Drax Power Station?

One significant change was the emergence of vertically integrated companies, combining generation, distribution and supply interests. In certain cases, it became necessary for generation assets to be divested, and so in 1999 Drax Power Station was acquired by the US-based AES Corporation for £1.87 billion (US\$3 billion).

How does Drax support small scale generators?

Drax supports over 2,300 small scale generators, buying renewable power including hydro, wind, solar and anaerobic digestion through Power Purchase Agreements (PPAs). Drax also allows large businesses to create bespoke renewable power contracts with its large hydro generators through Corporate Power Purchase Agreements (CPPAs).
