Overview

Are there electrical outlets in Greenland?

No, the electrical outlets in Greenland are different from those in the United States. In Greenland electrical outlets of types C, F, E & K are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Greenland?

The electrical outlets and power plugs in Greenland are of types C, F, E & K (see images) .

What type of plug does Greenland use?

Greenland uses power outlets and plugs of types C, F, E & K. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug.

Can I use a power socket in Greenland?

Plugs of type C also fit into a type K socket, and there is unsafe compatibility with plugs of type E and F. All power sockets in Greenland provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Greenland if the outlet voltage in your own country is between 220V-240V.

Does Greenland need a voltage converter?

Type F outlets also work with type C and E plugs. Type K outlets are also compatible with type C, E, and F plugs. Do you need a voltage converter in Greenland?

Yes, you'll likely need a voltage converter. In Greenland the standard

voltage is 230V with a frequency of 50Hz.

Can I connect my laptop charger to an electrical outlet in Greenland?

Yes, you can connect your laptop charger to an electrical outlet in Greenland as long as the outlet is compatible with the charger's voltage and plug type. In Greenland, the standard voltage is 230V and the standard frequency is 50Hz.

Do I need a travel adapter in Greenland?

The electrical outlets and power plugs in Greenland are of types C, F, E & K (see images) . If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.
