The Energy Storage Summit Central Eastern Europe is set to return in September 2025 for its third edition, focusing on regional markets and the unique opportunities they present. This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional grids, ...

### Finland: Wind and pumped hydro limitations driving

## battery storage

Huge wind power deployments and the limitations of the existing fleet of pumped hydro energy storage (PHES) are driving the battery storage market in Finland, a local system integrator said. That's according to executives from Merus Power speaking to Energy-Storage.news at Energy Storage Summit last week.
