Overview

Who is equans solar & storage?

Equans Solar & Storage relies on a team of 1,500 employees spread across 15 countries on five continents, promoting a culture of safety, compliance, and social sustainability. It develops and implements high-performance solar photovoltaic and storage solutions to meet the specific ambitions and constraints of its local clients.

Who is equans?

Globally, Equans is a world leader in the energy and services sector with operations in 20 countries, 90,000 employees working on 5 continents and sales of 18.8 billion euros in 2023. Equans has secured a contract with renewable energy company, Low Carbon, for the design and build of six new large scale UK solar farms.

What are equans' new solar projects?

These latest solar projects build on Equans existing long-term partnership with Low Carbon. Since 2014, Equans has delivered four solar sites for them, with a further nine projects for large-scale solar farms in progress, and many nearing energisation. Together these projects will provide a total intended capacity of up to 616MWp.

Who is equans EV solutions?

At Equans EV Solutions, we offer a true end-to-end journey. We're with you at the very beginning - from creating a business case, through to site design and planning. We'll work with you to make sure your site is EV ready.

What makes equans unique?

EQUANS is always looking for the most innovative, efficient, and customised solutions for its clients. Commissioned by Floating PV, EQUANS has created a floating solar panel park at the Dessel site of Sibelco, a worldwide producer of

material solutions.

How many employees does equans have?

Equans is a world leader in the energy and services sector, operating in 20 countries, with 90,000 employees* working on five continents and annual sales of nearly €18 billion**.
