Euler energy Senegal

Overview

Will Senegal become an oil and gas producer in 2024?

This partnership could mobilise up to EUR 2.5 billion to support Senegal's efforts to achieve universal energy access and strengthen a resilient, secure and sustainable energy system that fosters sustainable development and economic growth. In 2024, Senegal is expected to become an oil and gas producer.

What is Senegal's energy policy?

The IEA's Energy Policy Review of Senegal 2023, published today, finds that energy is at the heart of Senegal's 2035 strategy for accelerating sustainable development and economic growth known as the Plan Sénégal Émergent (PSE), or the Emerging Senegal Plan.

Will Senegal become an emerging economy by 2035?

The development of Senegal's energy sector is at the heart of the country's strategy for sustainable and economic development and aspiration to become an emerging economy by 2035 under the Plan Sénégal Émergent (PSE).

Can Senegal achieve its broader economic objectives?

Senegal's significant efforts to develop its energy sector and deliver energy access to more people are laying important groundwork for the country to achieve its broader economic objectives, according to a new report from the International Energy Agency (IEA).

Can Senegal achieve universal access to modern energy?

In order to achieve universal access to modern energy, to spur industrialisation and consolidate a low-carbon, resilient and sustainable energy system, Senegal has recently joined the ranks of countries (South Africa, Indonesia, Viet Nam) having entered a Just Energy Transition Partnership (JETP).

How does Senegal support regional energy cooperation?

Senegal supports regional energy cooperation as a member of the West African Power Pool (WAPP) and is a member of regional organizations to develop hydroelectricity resources on the Senegal (OMVS – Senegal River Basin Development Organization) and Gambia (OMVG – Gambia River Basin Development Organization) rivers.
