

## Solar Energy South Africa

# European Photovoltaic Panel Market

## Overview

---

According to the International Renewable Energy Agency (IRENA), in 2023, Europe's solar PV installed reached 285.80 GW, with a growth rate of 23.45% over the previous year. What is Europe solar PV market size?

Europe Solar PV Market size was valued at USD 37.27 billion in 2023 and is expected to register CAGR of around 7.1% from 2024 to 2032. Continuous reduction in the cost of solar panels and associated components along with increased competition have led to more affordable solar PV installations.

Which country will dominate the European solar photovoltaics market?

Germany, with the largest installed capacity of solar photovoltaics, is expected to dominate the European solar photovoltaics (PV) market during the forecast period. The rooftop segment is estimated to witness significant growth during the forecast period in Europe.

Is Europe solar photovoltaic market poised for a strong growth?

As per Mordor Intelligence™ Industry Reports, the Europe Solar Photovoltaic market is poised for a robust expansion, with detailed statistics on market share, size, and revenue growth rate, alongside a forecast outlook and historical overview available in a free report PDF download.

What is Solarpower Europe's EU market outlook?

SolarPower Europe's annual EU Market Outlook helps policy stakeholders in delivering solar PV's immense potential to meet the EU's 2030 renewable energy targets. Produced with the support of our members and national solar association, the outlook demonstrates how solar energy can, and will, be the engine that drives the European Green Deal.

How is the European solar photovoltaic (PV) market segmented?

The European solar photovoltaic (PV) market is segmented by inverter type, end user, deployment, and geography. By type, the market is segmented into

thin-film and crystalline silicon. By end user, the market is segmented into residential, commercial, and industrial (including SMEs).

What is Europe's solar power market outlook for 2023-2027?

SolarPower Europe's new EU Market Outlook for Solar Power 2023-2027 reveals a record 56 GW of solar installations in Europe in 2023. However, the forecast for next year is lower. Almost 17 million more European homes were powered by solar in 2023, due to a 40% growth in solar installations from 2022.
