

Solar Energy South Africa

Faradion limited Estonia

Overview

Where is Faradion headquartered?

Faradion is headquartered in Sheffield, United Kingdom. What industry is Faradion in?

Faradion's primary industry is Electrical Equipment. Is Faradion a private or public company?

Faradion is a Private company. What is the current valuation of Faradion?

The current valuation of Faradion is 00000. What is Faradion's current revenue?

.

When was Faradion acquired?

Faradion was acquired on 05-Jan-2022. Who acquired Faradion?

Faradion was acquired by Reliance Industries. Discover how our experts ensure you're getting the most accurate financial data in the industry. Our data operations team has logged over 3.5 million hours researching, organizing, and integrating the information you need most.

Did RNeI acquire Faradion?

"RNEI has informed the Company that it has on October 28, 2024 acquired the balance equity stake from the existing shareholders of Faradion. With this acquisition, Faradion has now become a wholly-owned subsidiary of RNEI," Reliance Industries announced on Tuesday, October 29.

How much money has Faradion raised?

The current revenue for Faradion is 00000. How much funding has Faradion raised over time?

Faradion has raised \$9.7M. Who are Faradion's investors?

Enterprise Ventures, Finance Yorkshire, Innovate UK, Mercia Asset Management, and Sharp are 5 of 6 investors who have invested in Faradion.

How much did reliance invest in Faradion?

Reliance initially announced its interest in UK-based Faradion in December 2021, with the acquisition valued at £100 million, with RNESESL investing £25 million as growth capital in the company.

Is Faradion part of India's Net Zero Mission?

We look forward to being part of India's Net Zero mission." Dr. Chris Wright, Chairman and Co-Founder Faradion, said, "Dr Jerry Barker, Ashwin Kumaraswamy and I founded Faradion in 2010 to develop sodium-ion technology and bring it to market, with funds from Mercia Asset Management.

These novel materials employ sodium-ion (Na-ion) technology which, when incorporated into batteries, will be virtually indistinguishable from the leading products currently ...

Reliance New Energy, India acquires 100% share of UK based Faradion Limited

On October 29, Reliance New Energy Limited (RNEL) announced that it had acquired 100% stakes in Faradion Limited. RNEL previously held 92.01% equity stakes in this company. With this acquisition, Faradion has now become a wholly-owned subsidiary of RNEL. Faradion was founded in 2011 to develop sodium-ion technology.

Faradion

Faradion may be growing as it has been identified as a key player in the sodium-ion battery market, which is projected to reach USD 2665 million by 2030, growing at a CAGR of 11.2%. The company's strategic acquisitions, including its purchase by Reliance Industries, indicate an expansion of its technological capabilities and market presence.

Reliance New Energy Solar to Acquire Faradion Limited

Reliance New Energy Solar Ltd ("RNESL"), a wholly owned subsidiary of Reliance Industries Ltd., has signed definitive agreements to acquire 100% shareholding in Faradion Limited ("Faradion") for an enterprise value of GBP 100 Mn. In addition, RNESSL will also invest GBP 25 Mn as growth capital to accelerate commercial roll out.

Reliance Buys Sodium Ion Battery Firm, Faradion Limited in £100 ...

In a regulatory filing on December 30, Reliance Industries Limited has announced that its solar subsidiary, Reliance New Energy Solar Limited (RNESL), will buy UK based sodium ion battery technology provider Faradion Ltd for 100 million pounds including debt. Sodium Ion batteries have been considered a solid prospect for lower storage costs. Or as Faradion's self description ...

RNESL to acquire UK's battery technology firm Faradion

India's Reliance New Energy Solar Limited (RNESL), a subsidiary of Reliance Industries, has signed definitive agreements to acquire complete stake in UK-based sodium-ion battery technology firm Faradion, for an enterprise value of \$134m (£100m).

Faradion, Moixa & Warwick university to develop sodium-ion ...

Faradion CEO said: "This partnership with Moixa

Technology and WMG, University of Warwick, offers a great opportunity, not just for Faradion, but for global CO2 reduction. Solar energy storage is an important growth market of the next five years and this partnership means that the UK has the opportunity to be at the forefront of technology

Superior Safety

The inherent safety features of a Na-ion cell are distinct and unique to the chemistry. Safer battery storage and transportation The dangers of transporting Li-ion batteries are well documented, and they should not be discharged below 30% SOC for transportation/storage, so cargo cells must be air-freight transported at considerable cost. However, a sodium-ion cell can be fully
