Flame resistant cabinets Macao

Overview

What are explosion-proof cabinets?

Explosion-proof cabinets are special equipment that can safely store all kinds of dangerous chemicals. They are also called chemical liquid cabinets, fire-resistant cabinets, fire-proof safety cabinets, flammable and combustible liquid storage cabinets, and hazardous chemicals storage cabinets.

What is Moem fire resistant cabinet?

MOEM series of fire resistant cabinet offers protection for valuables against fire. It is tested and certified under SP NT Fire 017 for 1-hour fire rating that is recognized internationally.

What are the features of a fire resistant cabinet?

Enhanced Protection: Our cabinet boasts a sturdy 50mm overall thickness with a special fire-resistant barrier sandwiched between electro-galvanized steel doors and body. Individual Compartment Design: Each compartment is designed independently, ensuring individual fire protection even if drawers are left open during a fire.

How to choose a Chemical Safety Cabinet?

The choice of chemical safety cabinet can be considered from the aspects of storage container, storage capacity, use environment of the safety cabinet, chemical properties and management of special chemicals. 1. Use environment.

How to choose a safety cabinet for a laboratory fume hood?

Choose a floor-standing or desktop safety cabinet, or a safety storage cabinet (such as a 10-gallon safety cabinet) that is used in conjunction with the laboratory fume hood according to your needs. In addition, suitable PVC pallets can be configured according to the needs of leakage prevention in the cabinet. 2. Chemical properties.

Can you put corrosive chemicals in an explosion-proof safety cabinet?

It is strictly forbidden to put strong corrosive chemicals in an explosion-proof safety cabinet. Strongly corrosive chemicals should not be placed in the same cabinet as flammable and combustible chemicals, and special strong corrosive chemical cabinets should be purchased for classified storage.
