Fractal Energy

Fractal Energy is a French company fighting against energy poverty and climate change. Our goal is to contribute to the required energy transition by helping every households and concerned citizens getting involved in the optimisation of their consumption of renewable electricity and thus reduce their electricity bill and their carbon footprint.

Energy Storage Financial Model

The Fractal Model provides investment grade analysis by simulating performance, degradation, warranty, costs and revenues to optimize the economics of your energy storage and hybrid projects. The Fractal Model platform uses Fractal's Cloud Based Optimizer and seamlessly integrates with Fractal's MS Excel based Financial Models and Dashboards.

What is Solar Energy?

Cost savings: By generating your own electricity, you can reduce or eliminate monthly energy bills. Energy independence: Solar panels allow you to generate electricity on-site, providing greater control and resilience. Long-term investment: Solar systems have a lifespan of 25 years or more, offering a reliable and durable energy solution.
