About Us - MacGillivray Freeman

Our roots in the world of entertainment and media run deep. After a decade of making artful surfing documentaries and adventure sports films in the 1960s and 70s, in 1976 we were invited to produce an IMAX film, To Fly!, for the Smithsonian's new National Air and Space Museum. We fell in love with the IMAX format, and our team went on to pioneer the nascent IMAX industry, ...

Our Story - MacGillivray Freeman

Greg has been producing and directing award-winning films for more than 40 years. He started making films when he was just 13 and partnered with Jim Freeman to form MacGillivray Freeman Films in 1966. He loves the continual chess game of ...

Team - MacGillivray Freeman

He started making films when he was just 13 and later partnered with Jim Freeman to form MacGillivray Freeman Films in 1966. He loves the continual chess game of making a film, where each move affects every element. Today, he has more than 60 films to his credit, including over 40 IMAX productions. "Great Adventure Films" is a registered

Benin solar market garden project one of five most

hopeful ...

FSE's Benin solar market garden project was picked as one of the most five hopeful energy stories of 2012 by National Geographic. Jennifer Burney, FSE fellow and lead on the Benin project, is a National Geographic Emerging Explorer. FSE began its partnership with the Solar Electric Light Fund in 2007 and continues to work together to spread the technology into ...

Benin solar market gardens: video gallery , FSI

This video gallery features the success story of a women's farming group in Northern Benin who through the adoption of solar-powered irrigation pumps increased household income and nutritional intake in just one year. It is intended to inspire investment in innovative ideas that link food security, energy security, and water security in the world's poorest areas.

Benin solar market gardens: photo gallery , FSI

This annotated photo gallery displays the success story of an ongoing solar market gardens project in which a women's farming group in Northern Benin, through the adoption of solar-powered irrigation pumps, increased household income and nutritional intake in just

one year, particularly during the long dry season. This story is intended to inspire investment in ...

Benin's Defissol solar PV plant commissioned , African Energy

Energy minister Jean Houssou has commissioned the 25MW Defissol solar PV plant, Benin's first large solar PV project. The project was financed by Agence Française de Développement, the European Union and Société Béninoise d'Énergie Électrique.

Storytelling on the Giant Screen - MacGillivray Freeman

At MacGillivray Freeman, we believe giant-screen films can transform how people see and experience their world. Giant-screen films can take audiences on adventures to the most extraordinary and remote places on Earth. Places few will ever visit. They can also inspire families to explore new destinations and discover new passions.
