4G/CAN/RS485

Overview

Does a Garmin Edge 1040 have solar panels?

With Garmin's introduction of the Edge 1040 Series they've become the first GPS bike computer to not only add solar panels to it, but also add multiband GNSS, dramatically increasing the accuracy of the GPS tracks – especially in tougher conditions.

How does a Garmin solar panel work?

Garmin successfully integrated microscopic solar conducting cells into a glass panel less than half a millimeter thick. This means that the panel can effectively capture photoelectricity while still being highly transparent and indistinguishable from regular watch faces when viewed with the naked eye.

What size solar panel fits each mount?

To see what solar panel size fits each mount safely, please see here: [Panel Sizes](#). If required, longer 750mm stays can be ordered to fit your solar panel if it is wider than 650mm, but please take caution not to overload the fittings or your boat rail etc. 10606 NOA Adjustable Solar Panel Mount, 25mm NOA fitting (B).

How do I set up a Garmin Edge 1040 solar?

If you own previous Garmin units or have a Garmin Connect account, setting up for the Edge 1040 Solar is easy. After pairing the unit with your phone, it will sync with Garmin Connect and populate the correct user profile metrics. The only process you'll have to sift through on the actual unit is laying out the screens.

What is Garmin's power glass solar charging lens?

Garmin's breakthrough Power Glass solar charging lens technology puts our range of outdoor and sports smart watches in a class of their own. Take it to the mountain top or ocean deep, it will draw upon the sun's power to power

you to greater feats. Garmin's Power Glass system has shaken up decades of stagnant solar panel technology.

Does the Garmin Edge 1050 have a bike bell feature?

Plus, with the Edge 1050, it can now control the bike bell feature! If you need to go *REALLY* long with a Garmin Edge device, this snap-on/under weatherproof battery pack basically gets you double your battery life. It snaps under your existing Edge with an included mount.
