Nuclear energy revival in Serbia: A shift towards new energy solutions

After more than 30 years of dormancy, the concept of incorporating nuclear energy into Serbia's energy mix is experiencing a significant resurgence. This renewed interest is largely driven by the new Proposal for the Law on Energy, which aims to lift the 1989 ban on constructing nuclear power plants. This movement is also backed by multiple agreements ...

Branislav Ramjanc

Co-founder of BEDEM Energy Solutions · It is well known that finding an adequate way to supply energy is a serious challenge for all organizations, whether they operate in the for-profit or government / public sector. This challenge has two dimensions. First of all, the question arises as to how energy needs are met, as this decision greatly affects the amount of total operating costs.
