[Engineering at NOVO Energy -- NOVO](#)

The team is currently focused on designing, planning and equipping a world-class Gigafactory in time for our start of production in 2026. This is an incredible engineering challenge, requiring the joint efforts and contributions of talented people working cross-functionally to produce the world's most sustainable lithium-ion batteries, in the world most sustainable city.

[Skellefteå Göteborg](#)

You will be employed at NOVO Energy from the start. For your first 12 months you will be on leave from NOVO Energy and get a temporary employment at Northvolt. After 12 months (or whatever is agreed upon), the leave ends and when you move back to Gothenburg you start your job as an employee of NOVO Energy.
