## Energy

The Energy Policy 2020-2050 established that the vast majority of Guernsey's energy supplies will come from clean, low carbon sources by 2050 at the latest, local renewable generation will be encouraged and residual emissions will be offset. In order to deliver this, the six following objectives were agreed:

## [Energy Policy 2020 2050](#)

support renewable energy growth, and to reduce carbon emissions. Renewables and Low Carbon energy Next steps will be to develop the on-island renewable energy sector to support decarbonisation and to support energy security and resilience. Guernsey has abundant resources of wind, wave, tidal and solar that can be utilised to produce power.
