Overview

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Will Guernsey Electricity install a community-scale solar array?

Guernsey Electricity are delighted to have worked with The Little Green Energy Company to install another vast community-scale solar array, this time on the roof of the newly reopened GROW Ltd headquarters.

What is Guernsey's Electricity strategy?

In September 2023 The States of Guernsey agreed the Electricity Strategy. This detailed document covers the period up to 2050 and sets out a high-level strategic plan of how Guernsey could meet the anticipated increase in demand for electricity.

What are Guernsey's on-Island initiatives?

Alan Bates, CEO at Guernsey Electricity, said: "These on-island initiatives are designed to increase the amount of electricity generated from local renewable sources. "The electricity feeds directly into the island's network so that all our customers can benefit from locally generated, clean solar energy."

Where can I send a story to BBC Guernsey?

Follow BBC Guernsey on Twitter and Facebook. Send your story ideas to channel.islands@bbc.co.uk. There are 310 photovoltaic panels on the roof of the newly reopened Grow Ltd headquarters.

[Guernsey Solar Station](#)

The Guernsey Solar Station is a 20-megawatt photovoltaic (PV) solar power plant located in Kings County, California. It is part of the SOLRAD Network, a group of solar power plants that provide renewable energy to the region. The station uses advanced PV technology to convert sunlight into electricity, which is then distributed to the grid
