Guoxuan New Energy Energy Storage Promotional Video

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring

No container design
flexible site layout

Cycle Life
≥8000

Nominal Energy
200kwh

IP Grade
IP55

Overview

Will Shanghai Electric Guoxuan and Pacific green technologies develop battery energy storage systems?

Shanghai Electric Guoxuan New Energy Technology has signed a memorandum of understanding (MoU) with Pacific Green Technologies for the manufacturing of battery energy storage systems. Shanghai Electric Guoxuan and Pacific Green Technologies will collaborate to develop battery storage projects. Credit: Josef Kubes/Shutterstock.

What is Shanghai Electric Guoxuan's energy storage partnership?

Under the MoU, the two companies have agreed to explore possible energy storage projects across the world. The partnership marks Shanghai Electric Guoxuan's first venture in the global high-end energy storage market.

Which energy storage projects will be implemented by Huaibei Wanneng?

The above winning projects will be specifically implemented by the company's energy storage business section. After the completion of Huaibei Wanneng energy storage power station, it will become the power grid side lithium iron phosphate energy storage power station with the largest single capacity in China.

Who is Hefei Guoxuan?

Hefei Guoxuan is responsible for the battery energy storage system on the DC side of the project. After completion, it will become the Electroweb side lithium iron phosphate energy storage power station with the largest unit capacity in China.

What is Guoxuan Hi-Tech?

Guoxuan Hi-Tech will take advantage of the new opportunities of industrial development, comply with the trend, focus on technology-driven, promote the progress of the energy storage industry, and strive to become the leader of

the global energy storage industry. "

What is the construction scale of Huaibei waneng energy storage power station?

[394 million! The total scale of Huaibei Waneng energy storage power station project is 1GWH, of which the construction scale of the first phase is 103MWamp 206MWH with a construction period of 270 days. Hefei Guoxuan is responsible for the battery energy storage system on the DC side of the project.
