Lowest Cost home battery system? : r/solar

Hey people. I'm Canadian. I have Solar and during the day I'm selling the excess to the utility for 6.8 cents/kWh. At night I'm buying it back from the utility for 6.8 but paying fees and bogus taxes and whatnot making the buy-back about 18 cents.

Is there any upcoming cost-effective Home Battery? : r/solar

The problem for home use is that if you are 100% off grid, you'll be doing deep cycling of the cells, that will be harder on the cells than partial cycles. e.g; Doing 40-80% cycles is several fold less stressful than 10-100% cycles. but that also depends on the battery pack design For example a 50kWh Tesla battery is 350V and 142Ah

The Homeowner's Guide to Home Battery Backup

3 ???· A fully-charged 10kWh battery can run 86-100% of a home's power load for a 72-hour span, then longer as long as the battery is able to recharge, according to one study. The efficiency depends on how many devices and systems are using power, especially the heating and/or cooling, and if the batteries are being recharged during this period.

Using gen.1 Nissan leaf battery pack as home battery backup

Hey guys, here in Norway you can buy used 24kWh battery packs out of the 1.gen Nissan leaf for about 2.000 - 2.500usd and I am too much of a novice to know if there are good reasons not to use one of these packs as a "powerwall" these are packs that have been tested to greater than 85% of the original capacity.

Ingco Lithium-Ion Battery Pack 20V FBLI2001

This Lithium-Ion Battery pack is a replacement for the 2.0Ah Lithium-Ion Battery pack for ingco cordless power tools. It is a 20V battery that comes in two colors with a LED battery power indicator. The battery has no memory effect, and provides protection from over discharge, over-heating, and overload. Features:
