Hong Kong 365 energy

Overview

Energy in Hong Kong refers to the type of and its related infrastructure used in . Energy is crucial for the development of trade and industries in Hong Kong with its relatively small usable land. Hong Kong mostly imports its energy from outside or produces it through some intermediate process.

What is energy in Hong Kong?

Energy in Hong Kong refers to the type of energy and its related infrastructure used in Hong Kong. Energy is crucial for the development of trade and industries in Hong Kong with its relatively small usable land. Hong Kong mostly imports its energy from outside or produces it through some intermediate process.

What is the fuel mix for electricity generation in Hong Kong?

In the overall fuel mix for electricity generation in Hong Kong, natural gas dominates the fuel mix in Hong Kong, in 2020 on set-out basis, at around 48%, followed by nuclear energy and renewable energy accounted for around 28% and coal for around 24% .

Why do we need data about energy consumption in Hong Kong?

The data provides an understanding of the energy consumption patterns and usages, and arouses public interest and concern over the future development of energy in Hong Kong. Additionally, the information provides the Government with the basis to formulate and evaluate energy efficiency policies.

Does EMSD compile data on the use of energy in Hong Kong?

At EMSD, we compile data on the use of energy in Hong Kong and publish the publication "Hong Kong Energy End-use Data" which is available free to anyone. The publication covers energy consumption data of the different fuel types and the specific purposes for which they are consumed, e.g. air conditioning, lighting, cooking, etc.

How much energy is generated by coal in Hong Kong?

Most of the energy generated by coal in Hong Kong is for electricity generation. Hong Kong currently has a total of about 5 GW of capacity for coal-fired power stations. Natural gas was first introduced for electricity generation in Hong Kong in 1996.

Is HK Electric regulated by EMSD?

In March 2013, HK Electric has just completed the full-year wind measurement for a proposal of offshore wind farm project in Southwest Lamma Island. Energy-related affairs are regulated by the Electrical and Mechanical Services Department (EMSD; Chinese: 電機機械處) under the Development Bureau of the Government of Hong Kong.
